Hojun Kang

Division of Business Administration, Dongduk Women's University
Humanities Building Room 406, 60 Hwarang-ro 13-gil, Seongbuk-gu, Seoul 02748, Korea
hjkang@dongduk.ac.kr

EDUCATION

Mar 2020 – Aug 2023 **Ph.D., Management Information Systems**
Sogang University, Seoul, Korea
Advisor: Sang-Gun Lee
Dissertation: Cryptocurrency, Brave New Realm or Mere Dream? Using the Dunning-Kruger Effect and Size Effect for Empirical Analysis

ACADEMIC APPOINTMENTS

Sep 2026 – Present **Assistant Professor, Division of Business Administration**
Dongduk Women's University
Teaching and research in management information systems, with emphasis on AI applications to business and financial-market analysis
Research program spanning AI governance, graph-based financial risk detection, and the economics of digital assets

Apr 2025 – Aug 2026 **Senior Researcher, AI Policy Research Division**
Software Policy & Research Institute (SPRI)
Ethical AI implementation and policy framework development
Lead analyst of AI regulatory trends, industry impact assessment, and sustainable AI ecosystem policy recommendations

Sep 2024 – Apr 2025 **Research Professor, BK21 Business Education Research Group**
Sogang University
Research report writing, teaching, and project monitoring for the BK21 program

May 2024 – Aug 2024 **Researcher, BK21 Business Education Research Group**
Sogang University
BK21 project proposal development and progress reporting

Sep 2023 – Aug 2024 **Honorary Professor, Business School**
Sogang University
Development and submission of the BK21 project proposal; overall management and coordination

Mar 2018 – Dec 2022 **Research Assistant, ITRC Intelligent Blockchain Research Center**
Sogang University
Economic research and analysis of blockchain technology

PUBLICATIONS

Forthcoming

Byun, H., Lee, S.-G., & **Kang, H.** (in press). The Paradox of Regulation: Why Does Housing Supply Fail to Respond to Price Signals? *Journal of Real Estate Research*. *(Accepted)*

Refereed journal articles

Kang, H., & Lee, S.-G. (2027). Guilt by Association: Interpretable Multiplex Graph Learning of Accounting-Risk Contagion. *Information Sciences*, 762, 124208. *(SCIE Q1)*

Kang, H., & Lee, S.-G. (2026). Frozen Markets, Falling Prices: Illiquidity and Bounded Price Discovery in U.S. Neighborhood Housing Markets. *The Journal of Real Estate Finance and Economics*. *(SSCI Q1)*

Kang, H., Hwang, K., Lee, Y.-K., & Lee, S.-G. (2026). Did Spot Crypto ETFs Reallocate Venue Liquidity? Fragile Evidence. *Finance Research Letters*, 111, 110744. *(SSCI Q1)*

Kang, H., & Lee, S.-G. (2026). TRACE: Transaction Representation Learning for Large-Scale Ethereum Phishing Detection under Limited Labels. *Decision Support Systems*, 210, 114753. *(SCIE Q1)*

Kang, H., & Lee, S.-G. (2026). Institutionalization Without Integration: Bitcoin After the Spot ETF. *International Review of Economics and Finance*, 110, 105531. *(SSCI Q1)*

Kang, H., Kwon, M., & Lee, S.-G. (2026). How the Magnificent Seven Reshape Market Spillovers: TVP-VAR Evidence. *Finance Research Letters*, 101, 109942. *(SSCI Q1)*

Lee, S., Lee, S.-G., & **Kang, H.** (2026). Unleashing STO Potential: An AHP-Based Analysis of Critical Success Factors. *Blockchain: Research and Applications*, 7(2), 100333. *(SCIE Q1)*

Hwang, K., **Kang, H.**, & Han, J. (2026). The Role of Household Savings in Fiscal and Monetary Policy: A DSGE Analysis of China. *Journal of Asian and African Studies*, 61(3), 2038–2065. *(SSCI Q2)*

Kang, H., & Hwang, K. (2025). FORTRESS: Fraud-oriented Transformer with Random Traversal for Ethereum Security Surveillance. *Information Sciences*, 720, 122534. *(SCIE Q1)*

Kang, H., & Lee, S.-G. (2025). Market Phases and Price Discovery in NFTs: A Deep Learning Approach to Digital Asset Valuation. *Journal of Theoretical and Applied Electronic Commerce Research*, 20(2), 64. *(SSCI Q1)*

Liu, H., Lee, S.-G., & **Kang, H.** (2025). Graph-based Phishing Detection on Ethereum: A Comparative Analysis of GNN and Traditional Embedding Methods. *Journal of Information Systems*. *(KCI)*

Kang, H., Lee, S.-G., & Park, S.-Y. (2022). Information Efficiency in the Cryptocurrency Market: The Efficient-Market Hypothesis. *Journal of Computer Information Systems*, 62(3), 622–631. *(SCIE Q2)*

Kang, H., Lee, S.-G., Park, S.-Y., & Lee, H.-H. (2019). A Comparative Study on ICT Industries over South Korea, the US, and Japan Using Industry Relations Table. *The Korean Academy of Business History*, 34(2), 89–107. *(KCI)*

Kang, H., & Park, B. (2018). An Analysis on Customers' Perception of Korean Food in the US Using Text Mining. *Logos Management Review*, 16(4), 155–168. *(KCI)*

Books

Lee, S.-G., Kim, Y. J., Kim, A., & **Kang, H.** (2021). Data Analytics Methodology That Anyone Can Use. Sigma Press.

WORKING PAPERS

Revise and resubmit

Choi, J., Choi, H., Lee, S.-G., & **Kang, H.** (2026). Delay without denial: Chatbot deployment, customer persistence and service recovery in consumer finance. *Service Business*. *(Major revision)*

Kim, H., Lee, S.-G., & **Kang, H.** (2026). Does Cryptocurrency Still Stand Apart? Tail Connectedness with US Real Estate and Equities. *International Review of Economics & Finance*. *(Major revision)*

Kang, H., Lee, H.-J., & Lee, S.-G. (2026). The Asymmetric Effect of Spot Crypto ETP Approvals on Equity-Market Integration: Synthetic Difference-in-Differences Evidence. *International Review of Financial Analysis*. *(Resubmitted after major revision)*

Kang, H., & Lee, S.-G. (2026). Settlement-Unit Risk and Market Quality: Evidence from Stablecoin Depeg Episodes. *Journal of Financial and Quantitative Analysis*. *(Major revision)*

Kang, H., Hong, S. G., & Lee, S.-G. (2026). Event-Native Attention for Ethereum Scam Detection under Varying Feature Availability. *Journal of Supercomputing*. *(Resubmitted after major revision)*

Kang, H., Lee, S.-G., & Trimi, S. (2026). Hierarchical Multi-Scale Graph Convolutional Network for Detecting Ethereum Phishing. *Information Sciences*. *(Resubmitted after minor revision)*

Under review

Kang, H., & Lee, S.-G. (2026). Liquidity Subsidies for Sale: Evidence from a Market for Governance Votes. *Management Science*.

Work in progress

Kang, H., & Lee, S.-G. (2026). Freezing Digital Dollars: Public Lists, Private Information, and the Reach of Enforcement.

CONFERENCE PRESENTATIONS

Kim, J., **Kang, H.**, & Lee, J. (Oct 2026). From Regulation to Innovation: Mining High-Impact AI Patents Grounded in the EU AI Act and Korea's AI Basic Act. TRUST '26, ACM International Workshop on Trustworthy and Responsible Autonomous Systems (Proceedings, pp. 17–24), Munich, Germany.

Kang, H., & Lee, S.-G. (Jun 2026). MATE: Multi-Actor Graph Neural Networks for Corporate Delisting Prediction. KMIS, Gyeongju, Korea.

Kang, H., Lee, S.-G., & Lee, D. W. (Jun 2025). The Collision of Technology and Reputation: Information Asymmetry and Investor Bias in Cryptocurrency Markets. KMIS, Seoul, Korea.

Kang, H., & Lee, S.-G. (Oct 2024). Unmasking the Hidden Threat: Detecting Ethereum Phishing Nodes with Graph-Based Node2Vec-Transformer for Scam Detection Model. DSI, Arizona, USA.

Kang, H., & Lee, S.-G. (Nov 2024). Gas Price Stabilization in Ethereum 2.0. KMIS, Seoul, Korea.

Kang, H., & Lee, S.-G. (Oct 2024). Detecting Ethereum Phishing Nodes in NT4SD. E-Bridge, Seoul, Korea.

Kang, H., & Lee, S.-G. (Aug 2024). Scanning Ethereum Phishing Node. KASBA, Gyeongju, Korea.

Kang, H., & Lee, S.-G. (May 2024). Information Asymmetry in Cryptocurrency Markets: Evidence from the Dunning-Kruger Effect. KMIS, Seoul, Korea.

Kang, H., & Lee, S.-G. (Jun 2023). The Dunning-Kruger Effect and Information Disparities in Cryptocurrency Trading Behavior. KMIS, Jeju, Korea.

Kang, H., Park, S.-Y., & Lee, S.-G. (Jul 2021). Covid-19 Simulation Study with Beacon System: Through Bayesian Methods and Epidemic Models. KMIS, Yeosu, Korea.

Kang, H., Park, S.-Y., & Lee, S.-G. (Dec 2020). Information Efficiency in the Cryptocurrency Market: The Efficient Market Hypothesis. KMIS, Seoul, Korea.

Kang, H., Park, S., Kim, J., & Park, B. (Dec 2017). Analysis of Success Factors of FPS Games: Using Text Mining Analysis. Korean Intelligent Information Systems Society, Seoul, Korea.

Kang, H., Ko, Y., Park, H., Yoo, J., & Park, B. (Nov 2017). An Analysis on Customers' Perception of Korean Food in the US Using Text Mining. Korea Society of Electronic Commerce, Mokpo, Korea.

FUNDED PROJECTS

Apr 2026 – Present	**High-Impact AI Impact Assessment Project** Software Policy & Research Institute (SPRI)
Apr 2025 – Present	**MSIT-based AI Trend Monitoring** Software Policy & Research Institute (SPRI)
Apr 2025 – Present	**Survey on the Status of the AI Industry** Software Policy & Research Institute (SPRI)

Apr 2025 – Mar 2026	**Research on Improving the AI Industry Classification System** Software Policy & Research Institute (SPRI)
Apr 2025 – Mar 2026	**Research on AI Adoption in SMEs** Software Policy & Research Institute (SPRI)
Apr 2025 – Mar 2026	**Strategies for Promoting Data Interoperability and the Right to Data Portability in the Age of AI** Software Policy & Research Institute (SPRI)
Oct 2023 – Apr 2025	**ITRC Web3.0 Technology Research Center** Sogang University
Oct 2024 – Feb 2025	**Forecasting NFT Market Dynamics using Transformer-based Deep Learning: A Predictive Analysis** Korea Association of Game Industry (KGames)
Sep 2024 – Dec 2024	**Global Digital Talent Attraction: Policy Development and Implementation Strategies** Software Policy & Research Institute (SPRI)
Jan 2024 – Jul 2024	**Development and Implementation of Distributed Storage Systems for Energy Big Data Analytics** Ministry of Trade, Industry and Energy (MOTIE)
Feb 2023 – Jul 2023	**Chungnam Digital & Game Industry Development Feasibility Study and Operation Strategy** Chungnam Information & Culture Industry Promotion Agency (CTIA)
Sep 2022 – Dec 2022	**Virtual Power Plant (VPP) Economic Feasibility Study** Korea Energy Agency (KEA)
Sep 2021 – Jan 2022	**Central Bank Digital Currency (CBDC) and Tax Administration Research** Korea Institute of Public Finance (KIPF)
Oct 2020 – Dec 2020	**Digital New Deal — Busan City** Office of National Assembly Member Byeong-su Seo

HONORS AND AWARDS

Oct 2024	**Best Paper Award** E-Bridge Fall Conference
Jun 2021	**Outstanding Case Study Award** Korea Society of Management Information Systems (KMIS) Spring Conference
Dec 2020	**Best Paper Award** KMIS Fall Conference
Nov 2017	**Best Paper Award** Korea Society of Electronic Commerce Fall Conference
